nachfolgende Information steht nur in Englisch zu Verfügung.

To increase awareness and understanding of how blockchain technologies will impact your sector and business, the Blockstart partners launched a free training programme for SMEs of the healthcare, agrofood, logistic and supply chain sector this April. This webinar provides an overview of current trends in blockchain technology in the pharmaceutical and healthcare industries. In addition, the COVID-19 crisis continues to drive blockchain technology, as new developments such as a digital "Corona vaccination card" show. Participation is free of charge!

Speaker:

Michael Munz, Michael Munz - Blockchain-Technologieberatung

Daniel Palmer, Horváth & Partners, Baden-Württemberg

Nesrine Benyahia, Ph.D., CEO, DrData, Paris Region
